NISHCHAY SINGH

AI AND FULL-STACK DEVELOPER

Mumbai, Maharashtra, India
nishchaysingh234@gmail.com
linkedin.com/in/nishchaysingh-dev
github.com/Dracoindie

Third-year B.Tech Computer Science student who builds full-stack products end to end, with a focus on AI features that stay grounded in real data. Three internships across ERP software, MERN development and applied machine learning. Open to SDE and full-stack internships for 2027.

EXPERIENCE

Web Development Intern · **Amdox Technologies, Bengaluru** Apr – Jul 2026

- Built features for the Finance, HR and Settings/role-based access modules of an ERP platform covering finance, HR, supply chain, projects and reports.
- Developed REST APIs and connected them to React front-end screens; turned UI/UX wireframes into responsive, reusable components.
- Debugged and improved existing features, took part in code reviews, and worked in an agile team with sprint meetings.

Full-stack Developer Intern · **Codec Technologies India** Jun 2025 – Apr 2026

- Built front ends with HTML, CSS, JavaScript and React, and back-end services with Node.js and Express.
- Created REST APIs, integrated MongoDB, and set up authentication with JWT and OAuth.
- Used Git and GitHub, deployed apps to Heroku and Netlify, and finished by working with the company's dev team on a live full-stack project.

AI Intern · **Edunet Foundation** Jul – Aug 2025

- Completed mentor-guided projects applying machine learning to sustainability challenges, covering Green AI, energy-efficient models and ethical tech practices.

Project Lead · **Smart Campus Navigator** 2025

- Led a team building an indoor navigation system for the university campus, combining pathfinding with location-aware data.

PROJECTS

WeatherGPT · **Smart India Hackathon 2026 (SIH26068)** github.com/Dracoindie/WeatherGPT

- Conversational weather platform for India in English, Hindi, Hinglish and Marathi. Answers come from live Open-Meteo and NOAA GFS data validated with Pydantic; the language model only words facts that are already verified.
- Next.js PWA with a FastAPI backend, alert engine, district risk board and maps. Query parser scores 91.7% exact match on a held-out multilingual set. Cleared the internal college round.

EchoPanel github.com/Dracoindie/Ecopanel

- Live AI voice interviews with Technical, Product and Behavioural interviewers coordinated by a Moderator, from application and CV scan to an HR report where every evidence quote must match a real candidate turn.
- Next.js 14, TypeScript, PostgreSQL with Prisma, Agora voice, Groq assessment; 318 automated tests; demonstrated live end to end.

LocalBiz Connect github.com/Dracoindie/localbriz

- Platform connecting local businesses with influencers, with unique coupon codes per campaign so redemptions at checkout show what each campaign returned. Next.js, TypeScript, Supabase.

EV Adoption Forecasting AICTE internship, cycle 2

- Random Forest model with lag and rolling features that forecasts county-level EV adoption 36 months ahead, with a Streamlit app to explore and compare counties.

EDUCATION

B.Tech, Computer Science and Engineering
Universal SkillTech University
2024 – 2028

Intermediate
Matrix Academy College
2023

SKILLS

Languages: JavaScript, TypeScript, Python, Java, C, C++, SQL

Front end: React, Next.js, React Native, Tailwind CSS, GSAP

Back end: Node.js, Express, MongoDB, REST APIs, JWT and OAuth, Firebase

Data and AI: Pandas, scikit-learn, n8n and agentic workflows, prompt engineering

Tools: Git, GitHub, Vite, Heroku, Netlify

Foundations: Data structures and algorithms, OOP, DBMS

RECOGNITION

National Rank 12, National Level Olympiad for Mathematics (NLOM), 2026

NexFellow Recognized Builder, 2026

Selected Contributor, Open Source Connect India, 2026

Hackathons: Smart India Hackathon 2026, IBM Z Datathon 2026

CERTIFICATIONS

Ethical Hacker
Data Analyst in Python
HTML5, Infosys Springboard

LANGUAGES

Hindi, Marathi, English
